

NARENDER KUMAR

Software Engineer

@ narenderkumar.hut@gmail.com <https://github.com/nkverma07> 📍 Civil Lines, Jaipur

SUMMARY

Results-driven Software Engineer specializing in backend development with expertise in building scalable, high-performance systems using Python and FastAPI. Strong foundation in Data Structures, Algorithms, DBMS, and Operating Systems with hands-on experience in designing production-grade architectures, optimizing APIs, and deploying cloud-based solutions.

EXPERIENCE

Software Engineer

mPass Lobby Management Pvt. Ltd

📅 04/2025 - Present

- Developed scalable backend systems using Python and FastAPI, building high-performance RESTful APIs
- Designed and implemented microservices architecture to improve scalability and modularity
- Built and optimized database systems using PostgreSQL, MySQL, and SQLite with efficient schema design
- Implemented secure authentication using JWT tokens and cookies
- Integrated Redis caching to reduce API response time and improve performance
- Containerized applications using Docker and deployed on AWS cloud infrastructure
- Configured Nginx for load balancing and reverse proxy handling
- Designed complete system architecture including API workflows and service communication
- Integrated backend services with frontend applications and Firebase
- Improved API performance through optimization and debugging
- Collaborated using GitHub for version control and agile workflows

EDUCATION

B.Tech in AI & Data Science

ACEIT-RTU

📅 08/2022 - 05/2026

KEY ACHIEVEMENTS

💎 Personal App on Playstore

Published a Flutter-based mobile app on Google Play Store, achieving 50K+ pre-registrations within one month
